2014 Volunteer - Horse Trekking Center
Lanjaron, Spain = 08/2014

MORE THAN 10 YEARS EXPERIENCE WITH HORSES!

PERSONAL STATEMENT:

Since I was 12, I have been riding horses, as it is my biggest passion I did my **Bachelors in Animal Husbandry with Horse Breeding** as my Major for 4 years. After my degree, I travelled all around Europe and when opportunities provided I worked in several Horse farms as Volunteer. This is the reason why there are gaps between jobs. Now that I have given birth to my son in 2016, I am looking for Jobs in Horse Industry abroad. Wherein I would like to continue travelling around the world and work with Horses, combining both my Passions. Thus seeking 6 to 12 months contracts initially, which maybe prolonged.

June 2015 – Elpidohori (Argos, Greece) – Hippotherapy

March-April 2015 – Old Mulberry Country Estate (Golinia, Croatia) – horse rider

Volunteering in ecovillage during two weeks workshops for parents and children. Leading a horse and helping kids with different exercises presented by instructor. Taking care of their safety while they're on horseback, making them feel confident and comfortable around horses. Preparing different activities for children like juggling, slacklining, teaching English.

Training and preparing horses for the rides during summer season, when guests will come to enjoy one week trekking. Building up horses stamina and physical condition, getting them used to different terrain: water, forest, swamp, roads. Teach them to overcome obstacles without hesitation and with confidence. Breaking in youngsters, lunging.

August 2014 – Horse Trekking Center 'Caballo Blanco' (Lanjaron, Spain) – groom & rider

February-March 2014 – Thoroughbred Stud Farm (Golejewko, Poland) – horse breeding internship

My main responsibilities besides feeding horses, mucking out, tacking up, was taking clients on treks in the mountains. The rides lasted from an hour to couple of days. I was making sure everyone feel comfortable with their horse and level of trail difficulty is suitable for their skills. During days with no rides, I was exercising and schooling horses.

Helping mares during foaling, assisting with mating of mares in estrus, participating in veterinary checks. Calculating feed rations for each group of horses. Exercising yearlings and two year olds before they're sent for racing training. Learning about management of large stud, observing conducted methods of selection in breeding.
